

Sports Meetup App

Elevator Pitch:

A Sports meetup app that would allow you to connect with people in your area who are interested in playing the same sports as you. And allows you to connect with them and meet up. Also it would provide a platform for ranking players and reviewing and sharing your experiences and reference photos for future users to use.

Assumptions:

Athletes struggle to find other players in the same sport to play with casually. Tinder and other social medias show that people are okay to meet up with people they find on the internet with a mutual interest. There's nothing specifically out there to assist people in finding this service.

Problem Statements:

Identify popular sports of interest for our users.

Identify most interested age groups.

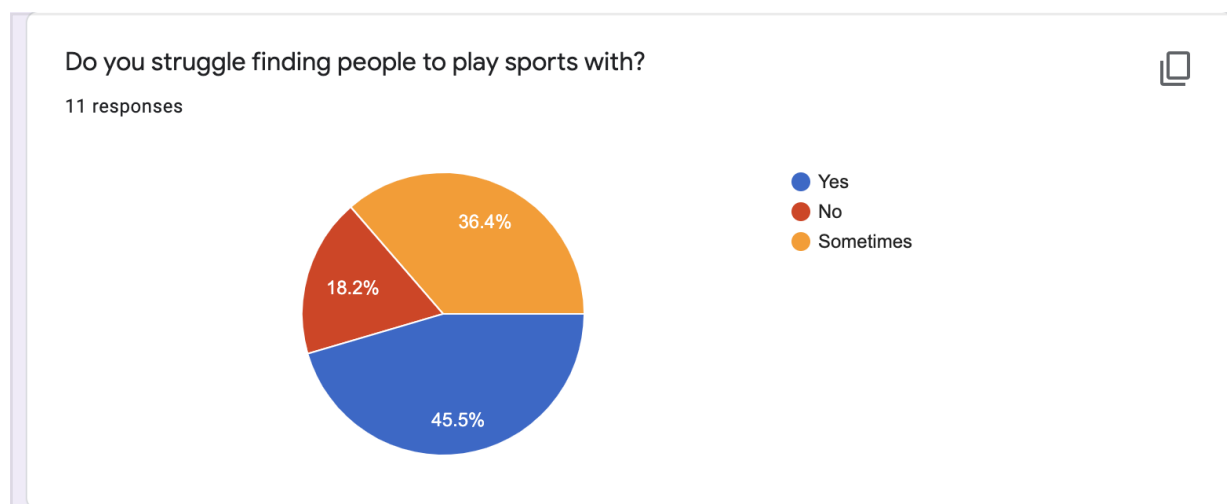

Identify desired level of intensity.

Identify hesitations people have with joining a league or finding pickup games.

Identify who players would like to play with.

Analysis & Results:

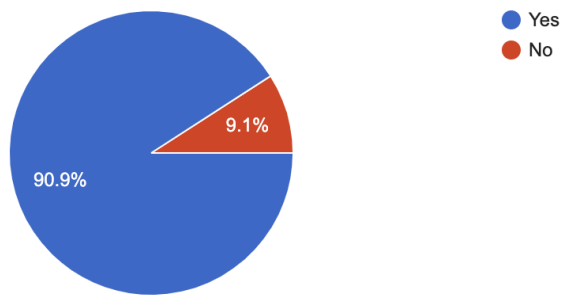

People are indeed struggling to find other people to play sports with.

People are willing to play Co-ed sports.

Would you be interested in playing CO-ED

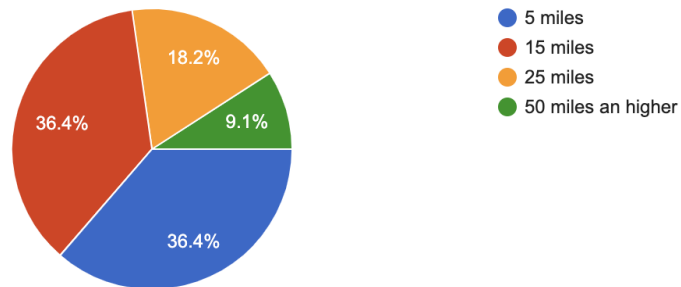

11 responses

People would be willing to travel to play with other players that they meet.

How far would travel to play with a similar ranked player?

11 responses

There are several sports that jump out as very popular among most people.
